

FULL PROPOSAL
**Request for access to Alberta Agriculture and Rural Development's
Containment Level 3 lab facility**

Principle Investigator:

Project Title:

Access Period being applied for (select only one): –October - March **OR** –April - September

Note: Access for a subsequent 6-month period requires reapplication.

Is this a primary application or reapplication ? If reapplication, please highlight (using comic sans font) new information not included in the initial application.

List staff who will access CL3 (include name, function, qualifications and experience working in CL2 or CL3). All persons accessing the CL3 will require proof of medical fitness from their institution and a criminal records check by the RCMP.

Provide details of what work you propose to conduct in the CL3 lab in this 6-month period?

List all SOPs accompanying this application.

Attach hazard assessment(s). Separate assessments required for lab and animal work.

Attach a copy of the documents submitted to your institution's animal review committee.

List specialized equipment that will be brought into containment. List any special utility requirements. (WARNING. Decontamination process required to remove equipment from facility may damage equipment.)

List facility equipment that will be required.

Identify number of bench modules required. (Each bench module measures 160 cm in length)

Will you require -20°C freezer space?

Will you require -86°C freezer space?

Do you anticipate requiring long term storage of biohazardous agents?

Are all project agreements in place (ie. Partnership agreements)?

Yes

No (please explain)
