FOREWORD	i
ACRONYM LIST	viii
GLOSSARY	x
ACKNOWLEDGEMENTS	xxiv
EXECUTIVE SUMMARY	xxvi
1 GENERAL DESCRIPTION OF THE SUSTAINED YIELD UNIT	1-1
1.1 History of Weyerhaeuser's Drayton Valley Forest Management Agreement (FMA) Area	1-1
1.2 Description of SYU R12	1-4
1.2.1 Physical Features	1-4
1.2.1.1 Ecological Information	1-4
1.2.1.2 Elevation and Topography	1-8
1.2.1.3 Soils	1-11
1.2.2 Landscape Management Unit Development	1-11
1.2.3 Landscape Patterns and Structure	1-12
1.2.3.1 Age Class and Seral Stage Distribution	1-12
1.2.3.2 Forest Types – Broad Cover Group and Leading Species	1-19
1.2.3.3 Landscape Characteristics	1-24
1.2.4 Natural Disturbance	1-30
1.2.4.1 Natural Disturbance Patterns	1-30
1.2.4.1.1 Natural Range of Age Class Distribution	1-30
1.2.4.1.2 Current Forest Conditions	1-32
1.2.4.2 Insect and Disease History	1-35
1.2.4.3 Fire History	1-35
1.2.4.4 Forest Fire Risk	1-40
1.2.5 Fish & Wildlife Resources	1-44
1.2.5.1 Avifauna	1-44
1.2.5.2 Herpetofauna	1-58
1.2.5.3 Ungulates	1-60
1.2.5.4 Furbearers	1-62
1.2.5.5 Large Carnivores	1-64
1.2.5.6 Small Mammals	1-64
1.2.5.7 Fisheries	1-67
1.2.6 Water Resources	1-70
1.2.6.1 Delineation of Watersheds	1-70
1.2.6.2 Hydrology	1-72
1.2.7 Unique Ecological and Historic Resources	1-73
1.2.7.1 Natural Areas and Ecological Reserves	1-73
1.2.7.2 Brazeau Canyon Wildland Provincial Park	1-75
1.2.7.3 Historical Resources Predictive Model	1-75
1.2.7.4 Prime Protection	1-76
1.2.8 Anthropogenic Uses	1-76
1.2.8.1 Aboriginals	1-76
1.2.8.2 Oil and Gas	1-77
1.2.8.3 Grazing	1-81
1.2.8.4 Private Land	1-81
1.2.8.5 Trapping	1-81
1.2.8.6 Recreation and Tourism	1-81
1.2.8.6.1 Wapiabi Recreation Area	1-82
1.2.8.6.2 Campgrounds	1-82
1.2.8.6.3 Day Use Areas	1-85
1.2.8.6.4 Parks	1-85
1.2.8.6.5 Tourism Operations and Recreational Stakeholders	1-85

1.2.8.6.6	Recreational Leases.....	1-86
1.2.8.7	Timber Harvesting.....	1-86
1.2.9	Wood Manufacturing Facilities	1-88
1.2.9.1	Weyerhaeuser Company Limited	1-88
1.2.9.2	Tall Pine Timber Co. Ltd.	1-90
1.2.9.3	Hansen Forest Products	1-91
1.2.9.4	Sundance Forest Industries.....	1-91
1.2.9.5	Sundre Forest Products (formally known as Sunpine Forest Products)– Rocky Mountain House	1-91
1.2.9.6	Small Sawmills.....	1-91
2	WEYERHAEUSER FOREST MANAGEMENT PHILOSOPHY AND THE PLANNING PROCESS.....	2-1
2.1	Corporate Hierarchy.....	2-1
2.2	Management Philosophy.....	2-2
2.2.1	Weyerhaeuser Philosophy.....	2-2
2.2.2	Environmental Management System (EMS)	2-5
2.2.3	CSA Certification.....	2-5
2.3	Planning Process	2-5
2.3.1	Ecological.....	2-6
2.3.2	Societal	2-6
2.3.3	Economic	2-6
2.4	Management Approach– Adaptive Management.....	2-7
3	RESOURCE MANAGEMENT GOALS	3-1
3.1	Previous Approved Plans Overlapping the Sustained Yield Unit.....	3-1
3.1.1	1986 Forest Management (FMU) Plans	3-1
3.1.2	1987 Preliminary Management Plan for FMA8500023.....	3-4
3.1.3	1992 Detailed Forest Management Plan for FMA8500023	3-7
3.1.4	1998 Preliminary Forest Management Plan for Expanded FMA 8500023	3-10
3.2	Proposed Goals.....	3-13

Map 1-13	Grazing Dispositions	1-83
Map 1-14	Registered Fur Management Areas.....	1-84

List of Appendices

- Appendix 1-1 Ecological Classification of the Weyerhaeuser Drayton Valley FMA
- Appendix 1-2 Watershed and Streams Classification Project: Weyerhaeuser – Edson/Drayton Valley
- Appendix 2-1 Drayton Valley Forest Management Agreement
- Appendix 2-2 Ecologically Based Forest Management: The Conservation of Biodiversity in Weyerhaeuser Canada Forest Management Areas in Alberta, December 1997.
- Appendix 3-1 Goals for Weyerhaeuser's Draft DFMP

Table of Contents

4	Timber Supply Forecasting	4-1
4.1	Introduction.....	4-1
4.2	Overview of the Timber Supply Forecasting Process.....	4-2
4.3	Current Status of Sustained Yield Unit R12	4-3
4.3.1	Forest Inventory.....	4-3
4.3.2	Growing Stock	4-3
4.3.3	Defining the Net Harvestable Land base.....	4-4
4.3.4	Comparison to the 1992 DFMP.....	4-6
4.3.5	Age Class Distribution Area by SYU	4-7
4.3.6	Site Productivity area by BCG.....	4-9
4.4	Yield Curves	4-10
4.4.1	Yield Curve Development	4-10
4.4.2	Strata Variables and Equation Parameters	4-14
4.5	Linking the Yield Curves to the Land Base	4-15
4.6	Forecasting Model	4-15
4.6.1	Remsoft Spatial Planning System.....	4-15
4.6.2	MOSEK.....	4-16
4.7	General Description of the Modeling Process	4-17
4.7.1	Initial Long Term Strategic Runs (Woodstock™).....	4-18
4.7.2	Harvest Mapping (Stanley™).....	4-18
4.7.3	Final Long Term Runs (Woodstock™).....	4-19
4.8	Assumptions and Uncertainties.....	4-20
4.8.1	Successional Dynamics	4-20
4.8.2	Natural Disturbance	4-20
4.9	Long Run Sustainable Yield.....	4-21
4.10	Input Parameters	4-21
4.11	Model Structure	4-23
4.12	Summary of Model Variables.....	4-23
4.12.1	Woodstock™	4-23
4.12.1.1	Start Date.....	4-24
4.12.1.2	Strategic Level Planning Horizon and Period Length.....	4-25
4.12.1.3	Objective and Strategic Level Sustainability Criteria (Constraints)...4-25	
4.12.1.4	Seral Stages.....	4-25
4.12.1.5	Periodic and Quadrant Reconciliation Volumes.....	4-28
4.12.1.6	Treatment Types	4-28
4.12.1.7	Treatment Eligibility	4-29
4.12.1.8	Transition Development Patterns (Responses)	4-29
4.12.1.9	Regeneration Lag.....	4-30
4.12.2	Stanley.....	4-30
4.12.2.1	Blocking and Sequencing Parameters Analysis.....	4-30
4.12.2.2	General	4-31
4.12.2.3	Adjacency Distances (Distance between same stratum blocks) ..4-32	
4.12.2.4	Minimum and Maximum Block Sizes	4-32
4.12.2.5	Target Block Sizes	4-32

4.12.2.6	Proximal Distances (Green-up distance between blocks)	4-33
4.12.2.7	Timing Deviation	4-33
4.12.3	Aspatial Post-Modeling Harvest Level Reductions	4-34
4.12.3.1	Stand Structure Retention	4-34
4.12.3.2	Cull Deductions	4-34
4.13	Preferred Management Strategy	4-35
4.13.1	Management Objectives and Model Constraints	4-35
4.13.2	Harvest Levels and Resulting Forest Conditions	4-39
4.13.2.1	Changes in Recommended Harvest Levels as Compared to Previous Management Plan Harvest Levels	4-40
4.13.3	Indicators from the Preferred Management Strategy	4-41
4.13.3.1	Average Volume per Hectare	4-41
4.13.3.2	Average Harvest Age	4-42
4.13.3.3	Piece Size Determination	4-43
4.13.3.4	Growing Stock	4-44
4.13.3.5	Seral Stage Retention	4-45
4.13.3.6	Patches	4-50
4.13.3.7	Area Harvested	4-53
4.13.3.8	Age Class Distribution	4-53
4.13.4	Quotas	4-58
4.14	Conclusion	4-63
4.15	References	4-64

7.4	Stewardship Report.....	7-3
7.5	DFMP Objectives and Associated Indicators	7-3
8	FUTURE CONSIDERATIONS	8-1
8.1	Insects and Disease	8-1
8.2	Long-term Harvesting and Grazing Implications	8-1
8.3	Enhanced Forest Management	8-2
8.4	Jasper Park Boundary	8-3
8.5	Marshybank Ecological Reserve	8-3
8.6	Forest Inventory and Timber Supply Analysis.....	8-3
8.7	Ecological Sustainability	8-4
8.8	Alternative Regeneration Standards	8-4
8.9	Historical Resources Predictive Model.....	8-4
8.10	LMU for Areas Outside of FMA	8-4
8.11	Research and Long-term Monitoring.....	8-4
8.12	Adjustment of Salvage Chargeability and Tracking	8-5

List of Tables

Table 6-1	Variance from DFMP SHS	6-2
Table 6-2	Harvesting Methods Currently Used by Weyerhaeuser.....	6-3
Table 6-3	BCG by Age Definitions for Late Seral Stages	6-16
Table 6-4	BCG by Landbase Constraints Applied in the TSA.....	6-17
Table 6-5	Areas Used to Determine Impacts on Water Yields Within a Fourth-order Watershed Upon the SYU (Step #1).....	6-24

List of Figures

Figure 5-1	Framework of the Drayton Valley DFMP Goals, Objectives and Strategies	5-2
Figure 6-1	Tall Pine LMU Timber Harvesting Landbase by Covertypes	6-28
Figure 6-2	Map of the Lodgepole Community Timber Program on FMA 8500023 (Jack Knife Harvest Design Area)	6-29
Figure 6-3	Lodgepole CTP Timber Harvesting Landbase by Covertypes	6-30

List of Maps

Map 6-1	Eastern Slopes Integrated Plan	6-33
---------	--------------------------------------	------

List of Appendices

Appendix 6-1	Silviculture Strategies for the Drayton Valley FMA
Appendix 6-2	Monitoring Protocol for the Establishment and Growth of Trees on Temporary Roads upon the Weyerhaeuser Pembina (Edson and Drayton Valley) FMA's
Appendix 6-3	Stand Level Ecological Guidelines
Appendix 6-4	Drayton Valley FMA Stand Level Retention Monitoring Report: 1999-2004
Appendix 6-5	Fourth-Order Watershed Calculations
Appendix 6-6	Guidelines for Integrating Timber Harvesting and Domestic Grazing in the Green Area
