

## RURAL BEAUTIFICATION

The Agricultural Committee of Lacombe County supports and encourages programs which will enhance and promote rural farmstead and acreage beautification.

Agricultural Societies operating within Lacombe County are deemed the most appropriate organizations to establish a program to recognize rural beautification.

To promote rural beautification, the Agricultural Committee will annually provide to each participating Agricultural Society:

1. Two plaques for presentation to the selected farmstead and the selected acreage; and
2. Available space in an appropriate issue of the *Lacombe County News* to recognize and honor the winners (site picture and brief write up).

Criteria for selecting winners and program promotion will be left to the discretion of each society. The criteria used by the society should be filed with the County Agricultural Fieldman when requesting the plaque.
