

Review the Farm Safety Resource Disc and X-Treme Safety booklet. You can find the answers to these quiz questions from those sources, your employer and/or the internet.

Record and submit your answers on the **answer sheet**. Keep these quiz questions for your training records.

**Introduction** ... Hint: Check *X-treme Safety* for Questions 1-3.

1. Workplace hazards are usually broken down into 4 main types: physical, biological, chemical and psychosocial. List 2-3 examples for each type that **you** may encounter on the farm/worksite this summer:

- A. Physical: \_\_\_\_\_
- B. Biological: \_\_\_\_\_
- C. Chemical: \_\_\_\_\_
- D. Psychosocial: \_\_\_\_\_

2. Workers starting a new job need to:

- A. Assess the risks and have a plan to deal with them
- B. Get the proper training
- C. Learn independently by figuring it out for themselves
- D. Know the rules
- E. All of the above, except for C

3. Your supervisor has asked you to do a task you're not trained for and you think there's a chance you could get badly hurt if you do the task. What should you do?

- A. Tell your supervisor, then ask to be trained on the task
- B. Google a YouTube video and quickly teach yourself
- C. Act like you know and just figure it out as you go
- D. Quit your job

**Safety Management**

4. What is a key point on the 'Five Minute Checkup' checklist for farm machinery?

- A. All shields and guards are in place
- B. Keys are removed from machinery when not in use
- C. Always observe the 'NO riders' rule on all farm machinery
- D. All of the above

5. If you get hurt at your farm/worksite this summer, who would you report your injury to?

- A. Your Supervisor and/or designated First Aider
- B. No one
- C. Facebook

6. This summer, do **you** know your supervisor's name and phone number? YES NO

7. Do **you** know the process for reporting an injury at your summer farm worksite? YES NO

## **Farm Equipment Safety**

8. Which of the following choices could result in an accident when driving a tractor?
- A. Not checking surroundings for children, co-workers or other bystanders
  - B. Taking a few selfies and texting them to your friends while driving
  - C. Driving close to a soft shoulder or ditch to permit other vehicles to pass
  - D. Turning corners quickly and at high speeds
  - E. All of the above
9. Round bales should be carried as high as possible for greater stability: TRUE FALSE
10. Machinery and equipment operators should be trained on each specific machine or piece of equipment they will operate: TRUE FALSE

11. Will **you** receive training for the machinery/equipment you will operate this summer? YES NO

## **Livestock Handling**

12. The flight zone is the same for all animals: TRUE FALSE
13. Which of the following statements on general animal behaviour is false:
- A. Cattle in the dark will move towards the light
  - B. If a cow sees a dead end, she will balk
  - C. Cattle will not follow a leader
  - D. Shadows and bright spots can make animals skittish
14. Zoonotic diseases can only be transferred from livestock to other livestock: TRUE FALSE

## **Pesticide and Hazardous Atmospheres**

15. Pesticides are toxic by design: TRUE FALSE
16. Will **you** receive training for the chemicals/pesticides you will be handling this summer? YES NO
17. Where can you look for information on a chemical or pesticide before using it?
- A. Container label
  - B. Material Safety Data Sheet (MSDS)
  - C. Manufacturer's website
  - D. All of the above
18. Which of the following is not a recommended practice when laundering pesticide-contaminated clothing?
- A. Use heavy duty detergent
  - B. Dry clothing in the dryer at a high temperature
  - C. Line-dry clothes
  - D. Wash clothing 2 to 3 times

19. Match the ways a hazardous substance (chemical, pesticide, etc.) could accidentally enter the body:

- |       |   |
|-------|---|
| Mouth | • Worker filling a tank leans over to look in just as some liquid splashes up |
| Lungs | • Worker fails to check for holes in their gloves or splash apron             |
| Skin  | • Worker breathes in the mist while spraying with an aerosol can              |
| Eyes  | • Worker forgets to wash their hands, then has a snack or smokes a cigarette  |

20. In case of accidental exposure to a farm chemical or pesticide, you should:

- A. Decontaminate immediately
- B. Seek medical attention or call the Poison and Drug Information Service
- C. Take the labeled container along, if seeking medical attention
- D. All of the above

21. Do **you** know where the phone number for the Poison and Drug Information Service is posted at your farm/worksite?                      YES                      NO

22. A respirator (respiratory protection) may not work properly if:

- A. A beard or mustache prevents an airtight seal
- B. The respirator has not been maintained or needs to be replaced
- C. The respirator is too big or too small for the worker's face
- D. All of the above

23. Which is not an example of a confined space?

- A. Manure pit
- B. Tractor cab
- C. Well shaft
- D. Grain bin

24. What is a key point on the Confined Spaces checklist?

- A. Keep untrained people out and post warning signs
- B. Leave a note on the entrance and enter alone
- C. Test for toxic gases and oxygen levels
- D. Answers A and C only

## **Health**

25. Which is not a key point when it comes to sound levels on a farm?

- A. Protect your hearing with approved safety ear muffs or ear plugs
- B. High noise levels can keep workers alert and energized
- C. Prolonged exposure to high noise levels can cause permanent damage
- D. Noise is too loud if you must raise your voice to be heard 1 metre (3 ft.) away

26. Personal protective equipment, like hearing protection, gloves and dust masks, only work...

- A. if you use them correctly
- B. Monday thru Friday
- C. for younger workers
- D. for older workers

27. Which is a healthy way to deal with stress?
- A. Text your friends during work time to vent about your problems
  - B. Relax with some potato chips, chicken wings and a sugary soda behind the barn
  - C. Ignore your problems until they eventually go away
  - D. Get enough sleep, exercise and eat right
28. Which is not a way to protect yourself from the sun's harmful rays?
- A. Schedule work to avoid being outdoors when the sun is at its peak
  - B. Wear a high SPF sunscreen and reapply as directed
  - C. Apply tanning oil and watch for skin redness or blisters
  - D. Wear sunglasses or tinted safety glasses

**Farm Yard Safety**

29. Leather gloves are better to wear than neoprene gloves when handling fuel because they are thicker: TRUE    FALSE
30. Fuel is more dangerous as a: LIQUID    VAPOR
31. The most severe injury to children riding as a passenger on a lawnmower is:
- A. Sunburn from not wearing sunscreen
  - B. Falling off the driver's lap and into the rotating blades
  - C. Tipping over when backing up hills
  - D. Hearing loss from not wearing hearing protection
32. If your tractor contacts an overhead power line, you should:
- A. Stay in the tractor and use your cellphone to call for help
  - B. Yell to bystanders to stay back and get them to call the utility company immediately
  - C. If there is a fire, jump from the equipment without allowing your body to touch the equipment and ground at the same time
  - D. All of the above
33. Do **you** know the location(s) of all the power lines on your worksite? YES    NO

**Emergency Preparedness**

34. In the event of an incident, do **you** know how to direct an ambulance to your worksite? YES    NO
35. Do **you** know the farm/worksite's emergency plan? YES    NO

*Remember, only submit the answer sheet. Keep these quiz pages for your records.*

Have a **safe**, educational and enjoyable summer on the farm!

## 2017 Summer Farm Employment Program – Farm Safety Quiz Answer Sheet

Employee Name: _____ 5-Digit Application #: _____	Mail your completed answer sheet to: <b>Summer Farm Employment Program</b> Postal Bag 600 Stettler, AB T0C 2L0 <b>or FAX to: 403-742-7527</b>
--	---

Please submit only this answer sheet and keep the quiz questions for your training records. Clearly indicate which answer you are selecting by circling it: A (B) C D

1. List 2-3 examples for each type of hazard that **you** may encounter on your farm/worksite this summer:

- A. Physical: \_\_\_\_\_
- B. Biological: \_\_\_\_\_
- C. Chemical: \_\_\_\_\_
- D. Psychosocial: \_\_\_\_\_
