

Frozen Potato Products and Other Frozen Foods

McCain Foods Limited is the world's largest manufacturer of frozen potato specialties and also produces other food products, including pizza, appetizers, oven meals and desserts. Our products can be found in thousands of restaurants and supermarkets in more than 160 countries around the world. Our potato facility in Alberta exports about half of what it produces to nine different countries in the Asia-Pacific region.

Our success at home and abroad has been built on the goodness of the potato. A powerhouse of nutrients, potatoes are among the leading sources of seven essential nutrients including potassium, fibre and vitamin C. Plus they are low in fat and are cholesterol free. Best of all, McCain French fries, a favourite around the world, offer much of this same goodness. To find out more about our love for potatoes, please visit www.mccain.com.

McCain is an international leader in the frozen food industry, employing approximately 18,000 people and operating 50 production facilities on six continents. McCain products are delicious, nutritious, affordable and convenient. We offer good food made by good people doing good things that makes people feel good.
