

## Animal Feed and Oats

Hi-Pro Feeds is a leading manufacturer and distributor of animal feed in North America. The company network comprises of an oat processing plant and 15 individual feed mills with operations spanning three U.S. States and three western Canadian provinces.

We offer double and triple cleaned oats and oat groats. The oats we use are produced in the cool, dry, northern climate of Northern Alberta and are considered “The Best in the World”. Oat groats are used in all classes of livestock and pet foods.

Hi-Pro also offers a complete line of animal feed. We produce only the highest performing feed products to the most stringent standards by combining the latest science, technology and nutritional expertise in our state-of-the art facilities. We manufacture feed across a wide range of species including dairy, beef, poultry, swine, buffalo, horses and companion animals.

Our facilities are HACCP and ISO 22000 certified. With over 80% of our employees as owners, Hi-Pro is committed to providing a safe feed source to all of our customers.

Products are available in bulk and bags up to 40 kgs.
