

The Battery Doctor

The Battery Doctor refunds 4-H clubs for collecting lead acid batteries. The Battery Doctor operates within a two hour radius of Edmonton. This company will pick up the batteries and recycles them 100%. The current price paid is up to \$2.00 per battery, depending on the market and the distance from Edmonton.

Procedure

- Contact the Battery Doctor to confirm the price and pick up before collecting the batteries.
- Ensure your 4-H club understands the handling and transportation of the batteries
- Designate one location for a pick up destination and have club members collect the batteries at this location.
- Have adult supervision when 4-H members are handling the batteries
