

## Post Day Camp Follow-Up

### Thank you notes:

It takes many people and much organization to have a successful farm safety day camp. It is important to let volunteers know that **their time and efforts are appreciated**. Write thank you notes to each volunteer, presenter and sponsor.

People especially **enjoy hearing from children** and their notes make a nice display for organizations that have a place to show them off. Large pre-made thank you cards can be signed by the kids at the camp and sent to sponsors, volunteers and presenters.

If funding allows, plan a wrap up meal to thank volunteers for their efforts. This event will also serve to find out what went well and what needs to be improved for a future event.

### Newspaper articles:

The local newspaper may send a reporter to take pictures and write a story. If they can't do this, take your own pictures and write a story about the day. The community needs to know about the event so the awareness level is increased in the community.

### Celebration:

It is important to celebrate the success of your hard work and efforts. Plan a BBQ, go bowling or go ice skating with your volunteers, presenters and sponsors.

### Tip

As soon as your farm safety day camp is over, take time to review. Identify strengths, weaknesses and build relationships for future programs and day camps.
