

## Fall 2011 Reforesting Harvested Areas Statistics: Contacts, Citation, Constraints & Keywords

### Contact

#### Contact Organization Primary:

<b>Organization:</b>	Alberta Environment and Sustainable Resource Development
<b>Person/Position:</b>	Ken Greenway, Senior Manager Reforestation Section
<b>Contact Information:</b>	
<b>Phone:</b>	780 427-8474
<b>Fax:</b>	780 427-0085
<b>Email:</b>	Ken.Greenway@gov.ab.ca
<b>Address:</b>	7 <sup>th</sup> Floor 9920 108 St Edmonton Alberta T5K 2M4

### Citation

<b>Originator:</b>	Forest Management Branch, Alberta Environment and Sustainable Resource Development
<b>Publication Date</b>	Fall 2011
<b>Presentation Format:</b>	Adobe Acrobat pdf file
<b>Online Linkage:</b>	<a href="http://srd.alberta.ca/LandsForests/ForestManagement/ForestManagementStatistics/ReforestationStatistics.aspx">srd.alberta.ca/LandsForests/ForestManagement/ForestManagementStatistics/ReforestationStatistics.aspx</a>

### General Constraints and Security

<b>Access Constraints:</b>	General public access via the external ESRD web site.
<b>Use Constraints:</b>	General public use. See Disclaimer at: <a href="http://srd.alberta.ca/LandsForests/ForestManagement/ForestManagementStatistics">srd.alberta.ca/LandsForests/ForestManagement/ForestManagementStatistics</a>

#### Security Information:

<b>Security Classification:</b>	Unrestricted
---------------------------------	--------------

### Keywords

<b>Keywords:</b>	area planted; area seeded; pine; spruce; total area planted and seeded; leave-for-natural reforestation; LFN reforestation; reforestation; reforestation method; tree planting; tree seeding; tree seedling; artificial reforestation; reforesting harvested areas statistics; area planted statistics; area seeded statistics; LFN statistics; Leave-for-Natural statistics
------------------	--

## Fall 2011 Reforesting Harvested Areas Statistics: Tables 1, 2, 3 and 4, and Figures 3 to 10 (excludes Leave-for-Natural)

General	
<b>Title:</b>	<b>Reforested Area planted and seeded.</b>
<b>Abstract:</b>	Statistic provide information about the amount of area planted and seeded as defined by National Forestry Database (NFD)
<b>Purpose:</b>	For public reporting of amount of reforested area planted and seeded, as reported by timber disposition holders.
<b>Supplemental Information:</b>	This data and data for other provinces can be found in a different format on the National Forestry Database Website. <a href="http://nfdp.ccfm.org/index_e.php">http://nfdp.ccfm.org/index_e.php</a>
Time Period and Status	
<b>Time Period of Content:</b>	Timber year (May 1-April 30) From: 2006/2007 To: 2010/2011
<b>Maintenance Progress:</b>	Preliminary and revised
<b>Update Frequency:</b>	Annual
<b>Date of Last Update</b>	2011-11-22
Data Quality and Process Information	
<b>Source Information:</b>	<b>Timber years 2006/2007 – 2010/2011:</b> provincial Reforestation Report from ARIS Database.
<b>Assumptions:</b>	<b>Timber years 2006/2007 – 2010/2011:</b> Current Statistic information created annually from ARIS database via the provincial Reforestation Report. Refer to Contact Person for additional information.
<b>Process Description:</b>	<b>Timber years 2006/2007 – 2010/2011:</b> Current Statistic information is created by an ORACLE report of an ARIS schema (non-editable copy of ARIS database fixed as of creation date).
<b>Process Date</b>	2011-09-15
Attribute Information	
<b>Attribute Description:</b>	<p>Land-use Framework Planning Region –seven regions established by the Government of Alberta for regional planning.</p> <p>Reforestation method –the method used to reforest an area harvested. This includes planting seedlings, seeding and Leave-for-Natural.</p> <p>Area (ha) –the area (in hectares) for each reforestation method completed in a given timber year.</p> <p>Tree Species Group –broad categories used to summarize</p>

	<p>main tree species. This include pine(s), spruce(s) and other.</p> <p>Number of seedlings planted – the total number of tree seedlings planted in the province by tree species group in a given timber year.</p> <p>Year (May 1-April 30) – the timber year.</p> <p>Area planted with seedlings (ha) – the area (in hectares) where nursery-raised tree seedlings were planted as a reforestation method in harvested areas in a given timber year.</p> <p>Area seeded – the area (in hectares) where tree seeds were distributed as a reforestation method in harvested areas in a given timber year.</p> <p>Total area planted and seeded – the area sum in hectares of the total area planted and seeded in a given timber year.</p> <p>Pine(s) – the number of pine seedlings planted in a given timber year. This includes all pine species.</p> <p>Spruce(s) – the number of spruce seedlings planted in a given timber year. This includes all spruce species.</p> <p>Other – the number of minor tree species planted in a given timber year. This includes true firs, Douglas fir, tamarack larch, white birch, balsam poplar and trembling aspen.</p> <p>Provincial Total– the total number of all tree seedlings planted in the province in a given timber year.</p> <p>Preliminary (p) – numbers reported for the first time in the Sustainable Forest Management: Current Facts &amp; Statistics. This usually applies to the most recent reporting year of each statistic.</p> <p>Revised (r) – numbers previously reported in the Sustainable Forest Management: Current Facts &amp; Statistics that have been updated since last reporting.</p> <p>See also Glossary of Terms.</p>

<b>Fall 2011 Reforesting Harvested Areas Statistics: Tables 1 and 3, and Figures 3, 5 and 9 (Leave-for-Natural only)</b>	
<b>General</b>	
<b>Title:</b>	<b>Leave-for-Natural (LFN) Area</b>
<b>Abstract:</b>	Statistic provide information about the amount of area that is classified as LFN.
<b>Purpose:</b>	For public reporting of amount of reforested area planted and seeded, as reported by timber disposition holders.
<b>Supplemental Information:</b>	
<b>Time Period and Status</b>	
<b>Time Period of Content:</b>	Timber year (May 1-April 30) From: 2006/2007 To: 2010/2011
<b>Maintenance Progress:</b>	Preliminary and revised
<b>Update Frequency:</b>	Annual
<b>Date of Last Update</b>	2011-11-22
<b>Data Quality and Process Information</b>	
<b>Source Information:</b>	Reforestation information within the Alberta Reforestation Information System (ARIS).
<b>Assumptions:</b>	LFN Activities within ARIS at the time of processing that have been conducted between May 01, 2006 and April 30, 2011.
<b>Process Description:</b>	Current Statistic information is created by an ORACLE report of an ARIS schema (non-editable copy of ARIS database fixed as of creation date) to provide the 2006-2011 Timber Year information.
<b>Process Date</b>	2011-09-15
<b>Attribute Information</b>	
<b>Attribute Description:</b>	<p>Leave-for-Natural (ha) – the area (in hectares) left to regenerate naturally as a reforestation method in harvested areas in a given timber year.</p> <p>Preliminary (p) – numbers reported for the first time in the Sustainable Forest Management: Current Facts &amp; Statistics. This usually applies to the most recent reporting year of each statistic.</p> <p>Revised (r) – numbers previously reported in the Sustainable Forest Management: Current Facts &amp; Statistics that have been updated since last reporting.</p> <p>See also Glossary of Terms.</p>
