

**VEGETATION MANAGEMENT
ROADSIDE SEEDING AND MOWING PROGRAM**

OBJECTIVE: To seed newly built roads with a suitable grass mixture to reduce noxious weed growth and soil erosion.

To mow all Secondary and Subdivision roads to control the growth and spread of noxious weeds.

1. The County will seed all newly built roads within its' boundaries with a suitable grass mixture.

2. The County will mow all Secondary and Subdivision roads at least once a year and a second pass will be made if time permits.
