Registration Deadline: February 1

Join us to learn about *The Lean Journey*, an online training resource. This resource includes a new module that combines the lean approach with food safety principles and practices. *The Lean Journey* is an interactive, online resource specifically for the food processing industry to learn about continuous improvement through lean thinking principles and tools. It also showcases how lean and food safety can complement each other. The hands-on web resource introduces owners, managers, and line staff to lean principles and some of the practical, user-friendly tools.

Who Should Attend?

This workshop is designed for the following individuals working in the food processing industry:

- Supervisors, lead hands, managers, and team leaders
- Project leads and continuous improvement facilitators
- Food safety and quality assurance personnel
- People from office or production environments
