### Enbridge 4H Centennial Logo

The success of any identity depends on it being consistently presented. As such, the Enbridge 4H Centennial logo is to be portrayed in a clear and consistent manner.

#### Minimum Size

To ensure legibility of the logo across a variety of applications, a minimum size has been established. The Enbridge 4H Centennial logo should not appear smaller than 1.5 inches in height.

1.5"

#### Four colour

#### Positive

#### Reverse

### Protected Area

The minimum clear space must be adhered to in every instance. This is to protect the integrity and clarity of the logo. This space is intended to separate and protect the logo from other elements such as imagery, text, slogans or other graphic treatments.

### Logo Colours

The Enbridge 4H Centennial logo colour consists of three Pantone colours and one grey. The colour is an integral part of the design.

Refer to the range of specifications noted at right to maintain colour integrity regardless of application.
