

	Oil Filter Recycling Program	
--	-------------------------------------	--

The 4-H Foundation of Alberta and Little Dipper Holdings Ltd of Lloydminster have agreed to a contract to provide Alberta 4-H groups the opportunity to continue with oil filter recycling fund raising campaigns originally done with Compak Filters.

In order to maintain a database of Alberta 4-H groups participating in this program we would appreciate the form below being completed and returned to the 4-H Foundation of Alberta. This form will be forwarded to Little Dipper, who will put your group in the pick up cycle for the area you cover. Once registered, 4-H groups will be provided the 800 number to contact Little Dipper to make pickup arrangements. This information will also be used to alert participating 4-H Groups on any changes to the programs.

The following items and fees are handled by Little Dipper:

Used Oil Filters	\$21.00 per 45 Gallon barrel
Used Oil (less than 10% water cut)	\$0.05 per litre (1000 L or more)
Plastic Oil Containers (bags & bag holders available)	\$1.00 per bag
Plastic Oil Pails (lids must be removed)	\$0.25 per pail

The Little Dipper drivers will issue a cheque to the Alberta 4-H group at the time of pickup.

Please return Completed form to (780) 682-3784 – Fax or foundation @4hab.com - email
