

## **Application to Become a Commercial Fish Culturist**

Thank you for applying to become a commercial fish culturist. A Commercial Class 'A' or 'B' fish culturist must possess a current licence to hold/sell cultured fish. Costs are \$75.00 for a Class 'A' and \$150.00 for a Class 'B' licence. Licences will be issued for a term expiring on the following March 31. Following are a few items to assist you in completing this form.

- Determine whether you need a Class 'A' or Class 'B' licence by identifying the species of fish you wish to culture. The species allowed for each licence are listed on the top of page 1.
- More than one water body may be covered under a licence if they are within 640 contiguous acres (1 square mile).
- Be advised that using water for the culture of fish may require a licence under the **Water Act**. For more information contact Alberta Environment, Water Approvals at one of the following locations:

Peace River (780) 624-6167    Edmonton (780) 427-5296    Stony Plain (780) 963-6131  
Red Deer (403) 340-7052    Calgary (403) 297-6582    Lethbridge (403) 382-4254

- If you do not completely own the water body you intend to stock, you must obtain permission from all other owners and have them sign in the area provided on page 2. Licences will not be issued for water bodies located on public land.
- New fish culture sites must be approved by an on-site inspection before a licence will be issued.

Should you require further assistance, please call the Licensing Office in Edmonton toll free by dialing 310-0000, then (780) 427-5083.

**\*\* Please remove this page from the application form and keep for your information\*\***

By signing this document I am authorizing Alberta Agriculture, Food and Rural Development personnel to enter my land for the purpose of conducting a site inspection.

I certify that all the above information is accurate and correct. If granted a Commercial Fish Culture Licence, I will abide by all requirements of The Alberta Fisheries Act and supporting Regulations.

Signed: \_\_\_\_\_ Date: \_\_\_\_\_, 20\_\_\_\_.

\_\_\_\_\_  
(please print name)

Include a complete drawing of the water bodies and/or facilities that you are applying to have licenced, **SHOWING DRAINAGE**, overflow areas and other nearby lakes, sloughs or streams (include all water control structures - dams, weirs, etc.). Indicate all public roads, road allowances, and the location of your residence (if it is near the site). All new commercial fish farm applications require on-site inspection. Sites will normally be inspected in the spring when they are ice-free and all drainage is visible.
