Dear Mr. Sklar:

Please find attached ANC Timber Ltd.'s "Mountain Pine Beetle Pine Strategy DFMP Amendment".

As you know significant work has gone into the development of this amendment to our current Detailed Forest Management Plan. ANC believes that implementation of this amendment will significantly improve our collective ability to deal with the impending MPB disaster. This amendment is not a stand alone document but will bridge the gap between our current DFMP and our revised DFMP which is due for submission in 2010.

Thank you Doug for considering this submission. We look forward to your timely review and approvals. If you or any of your staff have any questions please feel free to contact me.
