- All harvesting operations are to be conducted in accordance with Alberta's *Forests Act* and Timber Management Regulations.

Timber Management Regulation Clause that Applies to the TM66 Forest Product Permit	
67 (1)	On receipt of a non-refundable permit fee of \$5, the director may issue a Forest Products Tag in the TM 66 tag form to any person for the cutting and removal of up to the following quantities of primary timber products for use exclusively on land owned or controlled by that person or the spouse or adult interdependent partner or children of that person or jointly by 2 or more of any such persons: <ul style="list-style-type: none"> a. 20 trees for transplanting, under 2.5 metres in height, b. 3 trees for use as Christmas trees, under 2.5 metres in height, or c. 5 cubic metres of roundwood timber.
(2)	The Forest Products Tag is effective for a period of 30 days from the date of issue and is exempt from the payment of timber dues.

NOTE: The forest products described above are for personal use by the person authorized and not for resale or commercial use.

- You must ensure you are in the proper area before you do any cutting. No cutting is permitted within one kilometre (0.6 miles) of a designated recreation area (campground). If you are caught cutting trees outside of the designated wood cutting area, you could be prosecuted.
- When taking primary forest products from public land, you must carry your permit with you at all times when harvesting and transporting the products, and comply with the conditions specified on the permit.
- You must fill out the back of the permit when hauling wood.
- Cutting of green standing trees is strictly prohibited (except for birch). Only dead standing or wind fallen trees may be cut for firewood unless otherwise specified (except for birch, which may be taken green).
- All trees harvested must be cut within 30 centimetres (12 inches) of the average ground level.
- All trees are to be utilized to 4 centimetres (1.6 inches) or less top. All unused tops and limbs must be slashed, limbed and made to lie flat on the ground.
- All trees you fell must be removed. All trees must be harvested progressively as felled.
- No debris from logging shall be left on road right-of-ways or in ditches.
- No garbage (lunch bags, oil cans, etc.) shall be left lying around the cutting area.
- Keep damage to any surrounding live trees to a minimum.
- No mechanical diggers allowed.
- All holes made by digging transplants must be filled in.

Conditions for Christmas Tree Permits

Requests for specific areas of Christmas trees should be referred to Public Lands and Forest Division offices.
