

Policy Name

Hamlet/Subdivision/Municipal Reserves/Parks/Roadside Mowing Policy

Policy Number

AG - 7

Policy Statement

The Agricultural Service Department of Brazeau County will carry out mowing on areas designated within the policy.

Policy

Mowing for vegetation control will be carried out by Brazeau County on areas designated or according to the following procedures:

1. All main roads within subdivision/hamlets excluding Provincial Highways, unless contracted to do so.
2. On areas including Municipal Reserves/Parks approved by the A.S.B. and/or the County Council and recorded by motion designating the reason for the work, cost, and duration of the agreement.
3. Areas determined by the Agricultural Fieldman for safety and visibility, weed control, herbicide pre-treatment or tour routes.

Mowing will be carried out by either a contractor or Brazeau County equipment. The number of cuttings required during the growing season will be evaluated by the Agricultural Fieldman's office.

Private driveways and approaches will be the responsibility of the landholder to maintain. Mowing of community properties will not be carried out without approval by Council. Mowing within hamlets and subdivisions may be re-assessed on a site specific basis by either the Agriculture Fieldman or Director of Public Works.

Mower operations will also consider past history for maintenance where ditches are maintained by private individuals.
