

COYOTE AND PEST CONTROL POLICY

OBJECTIVE: To assist producers with the control of problem coyotes and pests that are or may be harassing or destroying their livestock or crops.

1. Producers losing or having animals harassed by coyotes may be assisted by issuing the producer toxicants to get rid of the problem animal(s).
2. All toxicants will be issued according to Alberta Agriculture Pest Control regulations.
3. Toxicants will only be issued to producers by a person holding a valid Form 6 "Permit to use and issue Nuisance Control Devices."
