Flammable and Combustible Materials

On farm examples:

Class C

Oxidizing Materials

On farm examples:

Class D-1

Poisonous and Infectious Material

Causing immediate & serious side effects

On farm examples:

Class D-2

Poisonous and Infectious Material

Causing other toxic effects

On farm examples:

Class D-3

Poisonous and Infectious Material

Biohazardous Infectious Materials

On farm examples:

Class E

Corrosive Materials

On farm examples:

Class F

Dangerously Reactive Material

On farm examples:

Take time to understand the hazards and use the right gear to protect yourself. Consult with a product's MSDS (Material Safety Data Sheet) before handling. Post the number to the Poison and Drug Information Service near every phone. It is a free & confidential call. 1-800-332-1414.

KNOW THE SIGNS. KNOW THE HAZARDS. KNOW THE JOB.
