

Natural and Organic Barley Products

Progressive Foods has a unique process to cook barley efficiently without losing its nutritional values. Our passion to create a tasty and healthy product has inspired us to make a natural and organic barley from locally grown hullless barley.

SNAPPY Grains™ is a Progressive Foods' brand with two product lines: Natural Barley in A Snap and Organic Barley in A Snap. SNAPPY Grains™ barley is an excellent source of protein, fibre and cholesterol lowering soluble fibre- beta glucan. As well, our barley contains a high per cent of resistant starch that is unique to SNAPPY Grains™. The many health benefits make barley a versatile grain and a great alternative to rice and starch rich foods.

Progressive Foods offers high quality products that can improve your health. We have put in the effort to prepare our barley to a state that provides convenience and simplicity in use. Snappy Grains™ barley only takes ten minutes to cook unlike other barley products and be served in many different ways. Check us out online for delicious recipe ideas.

Make Snappy Grains™ a part of your breakfast, lunch, dinner or dessert ... in a snap. Natural, organic, delicious!
