

Premium Antibiotic and Hormone Free Canadian Beef

Heritage Angus supplies premium Canadian beef to customers around the world. Certified Angus cattle are raised without antibiotics, added hormones or steroids and are certified Halal by IFANCC.

Bragging Rights:

- 100% Canadian Beef.
- Prohibited from receiving antibiotics of any kind.
- No added hormones or steroids.
- Sustainable program from conception to consumption.
- Traceable back to their farm of origin.
- Raised in Canada, from birth to finish.
- Vegetarian Feed.
- Humanely Raised.

Heritage Angus Beef sets the highest of standards by paying close attention to animal welfare, food safety, traceability, environmental stewardship and rural Canadian values. Heritage Angus Beef is produced from handpicked cattle that graze on the finest grasses and fodders on select feeds. With a passion for agriculture that comes from Canadian Ranching families, Heritage Angus Beef is made from ranch-raised beef that exceeds expectations in its flavour, tenderness and quality.

Simply stated, Heritage Angus Beef is antibiotic and hormone free beef at its very finest, just as nature intended with quality assurance that is backed by the national Canadian Angus Rancher Endorsed Program as well as the Verified Beef Producers of Canada.
