

Natural Spring Water

Nanton, Alberta is home to Canada's oldest spring water bottling company. Established in 1979, Nanton Water and Soda Ltd. continues to provide exceptional water from Canada's finest Natural Springs to offer our customers' world-wide a quality drinking water.

At Nanton Water & Soda Ltd. quality assurance is priority. All of our bottling facilities undergo stringent quality control processes. We test our sources frequently and we adhere to internationally recognized quality standards including SQF.

Our family of products are bottled in Alberta, sourced from local natural springs with naturally occurring vital trace minerals, such as calcium, magnesium and potassium, essential for good health. Spring Water options for export include the following sizes: 500ml, 1L & 1.5L.

Nanton Water & Soda Ltd. is Canada's most dynamic, responsive and customer friendly water producers as defined by customer care, customized programs offering private label bottled water, and flexibility. Now available for export, you can experience the flavor and taste of a quality Canadian product.
