

Pizza Crusts and Specialty Breads

Founded in 1989, Crust Craft is a high-capacity bakery serving retail and food service clients across Canada and the United States.

We combine the state-of-the-art technology with time-honoured artisanal baking techniques. The results are consistent, top-quality, and cost-effective products. We produce hand-stretched par-baked pizza crusts, fully baked naan and flatbreads as well as customized raw dough items designed for further processing in in-store bakeries.

Our research and development team specializes in listening to your ideas and creating innovative solutions and will work with you to perfect your product. From our facility to your shelf or menu, we'll deliver a product your customers will love! Your success is our success!

Crust Craft maintains a HACCP-compliant facility and achieved an "AA" rating on our recent British Retail Consortium (BRC) audit, one of the most stringent food safety standards in the world.

We built our reputation as an industry leader on a foundation of satisfied clients. When you work with Crust Craft, you get more than a supplier—you get a partner!

Crust Craft Inc.
