

Frozen Entrées

Inovata Foods is a leading North American co-packer and supplier of private label frozen entrées. Since inception in 1989 they have grown to occupy two GFSI SQF and HACCP certified facilities with a total of 140,000 sq. ft. of manufacturing space. One of their facilities is situated between Buffalo and Detroit only one hundred miles from the United States border. Inovata Foods' four assembly lines and industry leading assortment of production equipment allow them to effectively produce a wide variety of frozen entrées from single serve up to 6 lbs. They offer excellent value, quality and customer service.

Inovata Foods' culinary team excels at developing innovative new recipes as well as backwards engineering existing ones. Making sauce and pasta from scratch as well as cooking various grains on site allows Inovata Foods to offer nearly limitless recipe options. They are certified to manufacture entrées using beef, pork, chicken and seafood.

Packing Options – Various sizes and shapes of bowls and trays are available for co-pack and private label customers. Additionally, two patented innovative single serve trays are also available. CPET, PET, aluminum and paperboard are all options. External packaging options include: six sided retail cartons, sleeves, flow wrap, label and shrink wrap. Multi-packs are available.
