## Potato Snacks – Simply Great Taste!

SPOKES are hot-air puffed potato snacks that are made with simple, natural, gluten-free, dairy-free, and non-GMO project verified ingredients. We use a special hot-air puffing process that lets us make these light and tasty snacks with only 40 calories per cup. The only oil used in the process is a gentle mist of sunflower oil so that our great-tasting seasonings stick. We always air-puff and never fry anything.

The best thing is that SPOKES taste great!

Available in great flavors like: Sea Salt, BBQ, Sea Salt & Vinegar, Mango Habanero, Salt & Pepper, Salsa, Dill Pickle, Bare and Sea Salted Caramel.

Our world-class manufacturing plant is rated as “AA” by BRC. We are Certified Gluten-Free and Circle U Kosher.

**Certifications:** HACCP, Global Food Safety Initiative – GFSI, Kosher, British Retail Consortium – BRC, Non-GMO Project Verified
