

Elk Meat and Elk Products

Alberta Wapiti Products Co-op (AWAPCO) is a large volume wholesale supplier of ranch raised elk meat and elk products. We are proud to offer light, lean, and tender premium quality elk meat both fresh and frozen. Our elk are raised in a natural environment, with grazing and feeding on clean and spacious pasture. We also offer elk antler.

All AWAPCO elk are raised on farms monitored by Canada Food Inspection Agency, with disease surveillance in place. Our elk are processed at a federally and EU-inspected and approved processing facility with pasture to plate traceability.

AWAPCO is a new generation cooperative located in Alberta, Canada. Our company is owned and managed by our members (currently 144). AWAPCO has been in the business of marketing and selling ranch raised elk meat and elk products since June 2001.

AWAPCO has worked hard to build and maintain our reputation as a dependable and trusted supplier of premium quality elk meat in Europe, the United States, and Canada. AWAPCO is also working on expansion in both southern and eastern United States.
