### **WITHDRAWALS**

- 6 (1) The Minister may, at any time and from time to time in the Minister's discretion, after consultation with the Company with respect to the effect any such withdrawal may have on the forest management area, either permanently or for a specified term, withdraw from the forest management area:

- (a) any land that cannot be harvested without causing substantial harm to the water table or to lakes, rivers, streams or other bodies of water, to the margins of water courses or to roads;
  - (b) any lands required for rights-of-way or water resource development;
  - (c) any lands required for any other purposes deemed by the Minister to be required for the human or physical resource development of the Province;

- (2) A withdrawal shall take effect:
- (a) on the date that a notice of withdrawal is given by the Minister to the Company, or
  - (b) where the notice given to the Company states that the withdrawal shall take effect on a future date, on the date stated in the notice.
- (3) In the event from time to time, after consultation with the Company, of any withdrawal or withdrawals of land from the forest management area by the Minister under subparagraph (1):
- (a) for disposition to users other than the Crown, the Company shall be entitled to reasonable compensation from the users of the area withdrawn for any increased costs reasonably incurred by the Company in replacing the lost volume of timber and for any loss or damage suffered by the Company, including damage to timber, improvements, regeneration, forest growth, or to its operations on the forest management area resulting from such withdrawals;

- (4) The Minister may, from time to time, designate a withdrawal of lands under subparagraph (1) as exempt from subparagraph (3)(a) and where the Minister has so designated, the compensation with respect to such withdrawal shall be paid by the user requesting the withdrawal as prescribed by the appropriate Alberta timber damage assessment table. Such designated withdrawals shall contribute to cumulative net aggregate area withdrawn in subparagraph (3)(b).
- (5) Compensation under subparagraphs (3)(b) and (c) may be monetary or by the addition of available public land to the forest management area or a combination of both.
- (6) If the administration and control of any of the lands comprising the forest management area is transferred to the Crown in right of Canada, the Company shall be entitled to

- (10) The Minister may from time to time at the Minister's discretion request verifiable documentation of the use of compensation funds received under subparagraph (3)(a) and paragraph 8(1)(b) and the Company shall comply with any such request.

## **RIGHTS OVER THE LAND**

- 7 (1) Subject to all the terms and conditions of this Agreement, the Minister grants to the Company the right, during the term of this Agreement, to enter upon the forest management area to:
  - (a) establish, grow, harvest, and remove timber thereon on a perpetual sustained yield basis as provided for in the approved forest management plan; primarily manage for coniferous production all pure coniferous and mixed wood stands and pure deciduous stands with established coniferous understory identified in the approved forest inventory;
  - (b) carry out silviculture and other programs that are approved by the Minister in accordance with this Agreement; and
  - (c) construct, operate and maintain roads, bridges, camps, timber processing operations, wood concentration yards, and other installations necessary and incidental to the Company's harvesting and silvicultural operations on the forest management area.
- (2) For the purpose of interpreting the *Surface Rights Act*, the Company is an occupant of the public lands comprising the forest management area.
- (3) The Company shall be required to pay all fees prescribed pursuant to the *Public Lands Act* with respect to any dispositions issued, renewed or amended on or after the commencement date. However, the Company shall not be required to pay such fees with respect to any disposition held by it before the commencement date until such time as that disposition is renewed or amended.
- (4) The Company may obtain sand and gravel needed for its operations under this Agreement from any vacant public land on the forest management area pursuant to the Dispositions and Fees Regulation, subject to the payment by the Company of all required fees and royalties. In no case, however, shall the Company be required to pay fees or

royalties for *in situ* right-of-way material located and used where it is found within the right-of-way.

- (5) It is recognized by the Minister that the use of the forest management area to establish, grow, harvest and remove timber is to be the primary but not exclusive use thereof in keeping with the principles of sustainable forest management.
- 8 (1) The Minister reserves all rights on the forest management area not specifically given hereby to the Company in this Agreement, including by way of example, but without limiting the generality of the foregoing:
- (a) the right of others to travel, hunt, fish and otherwise use the said lands for recreational purposes, subject to any necessary restrictions approved by the Minister for the purpose of prevention of accidents, fire control, protection of wildlife, and seasonal protection of roads;
  - (b) the right to authorize any person to conduct any work in connection with or incidental to geological or geophysical exploration pursuant to the *Mines and Minerals Act*, or the Exploration Regulation; provided that the Company shall be entitled to reasonable compensation, from the person or company that holds the authorization to conduct the exploration, for any loss or damage suffered by the Company and resulting from such exploration including by way of example but without limitation, for any damage to timber, forest growth, regeneration, improvements or to any of its operations on the forest management area; and provided further that the Company shall not be entitled to compensation for damage to timber or forest growth caused by any such geological or geophysical exploration where the right to such timber has been granted to a third party under a timber disposition;
  - (c) the right to maintain and enhance forest resources, including fish and wildlife resources, provided the Company's right to establish, grow, harvest, and remove timber is not significantly impaired; and
  - (d) the right to authorize trapping and, after consultation with the Company, to authorize domestic stock grazing provided that the domestic stock grazing will not damage regeneration of managed species to the point where growth performance and overall stocking are reduced below the reforestation standards provided for in or agreed to pursuant to the Timber Management Regulation and provided that the Company's right to establish, grow, harvest, and remove timber is not significantly impaired.
- (2) The Minister also reserves the following rights to the timber on the forest management area:
- (a) the right, after consulting with the Company, to issue timber dispositions from within the forest management area to provide timber for local use in construction and maintenance of public works by any local authority, municipality, county, the Crown in right of Alberta or Canada, and for local residents for their own use and sale provided, however, that the total volume of timber cut under authority of such timber dispositions does not exceed one (1) percent of the Company's approved annual allowable cut;
  - (b) the right, after consulting with the Company, to issue timber dispositions on the forest management area to those disposition holders listed in Appendix "B", but shall not issue any new or additional quota certificates, and will not increase existing quotas beyond provisions that exist in the quota certificates or provided for by legislation; and
  - (c) the right, after consulting with the Company, to manage and reforest tree species on any lands that are subject to the allocations and timber dispositions referred to

in subparagraph (2) that are required to maintain the annual allowable cut as set out in the approved forest management plan.

- (3) The Minister and the Company agree to provide, each to the other, in confidence, such available information as the Minister and the Company may reasonably request concerning the operations on the forest management area that are authorized under timber dispositions. The Minister shall consult with the Company on an ongoing basis as may be required to minimize any conflict on the forest management area between the operations authorized under the timber dispositions issued pursuant to subparagraph (2) and the operations of the Company.

## **FOREST MANAGEMENT**

### **A. GENERAL PROVISIONS**

- 9 On the forest management area, the Company shall, in accordance with the approved forest management plan, follow sound forest management practices designed to provide a perpetual sustained yield of timber from the productive forest land, while not reducing the productivity of the land.
- 10 (1) The Company shall submit a forest management plan in accordance with the forest planning standards for the Minister's approval on or before May 1, 2017 and a new forest management plan on or before May 1, 2027.
  - (2) Each forest management plan developed under subparagraph (1), when approved, shall replace the previously approved forest management plan.
  - (3) Before the Company submits a forest management plan referred to in subparagraph (1) to the Minister for review and approval, the Company shall make the necessary arrangements required for and shall conduct presentations and reviews of their proposed forest management plans with the public and timber disposition holders in accordance with the forest planning standards as well as with potentially affected First Nations, including but not limited to First Nations identified by the Minister to the Company in writing from time to time.
  - (4) After such presentations and reviews referred to in subparagraph (3), the Company shall incorporate in the forest management plan its response to the public, First Nations, and timber disposition holders respecting the proposed forest management plan.
  - (5) The Minister may require the Company, after consulting with the Company, to alter any of the methods described in its forest management plans before approving such plans, provided, however, that the changes required by the Minister are consistent with the forest planning standards.
  - (6) The Minister agrees that so long as a plan required under this paragraph has been submitted by the Company within the time periods herein specified and provided such plan complies with the requirements of this Agreement, unless the Minister has sent a notice under paragraph 12, the Company is hereby authorized to continue to carry on its operations pursuant to the existing approved plan, pending approval being granted by the Minister to the newly submitted plan.
  - (7) Should the company fail to submit a forest management plan by the dates identified in subparagraph (1) or the submitted plan is not satisfactory to the Minister, without in any way limiting the Minister's other rights or remedies hereunder, the Minister may set new dates by reasonable notice in writing for revised forest management plan submissions.
  - (8) The Company shall co-operate with the development and implementation of integrated land management initiatives to the satisfaction of the Minister.

- 11 (1) The Company shall not digress from the approved plans without the Minister's consent in writing, with the understanding that the Minister shall provide a full explanation whenever consent is withheld.
  - (2) Notwithstanding subparagraph (1), the Company may continue operations under approved plans submitted pursuant to the forest management agreement authorized by O.C. 28/2002 until such time as those plans are either replaced by plans approved under this Agreement or the Minister deems the existing plans obsolete or inadequate pursuant to paragraph 12.
- 12 (1) When, in the opinion of the Minister, any plan approved by the Minister becomes obsolete or inadequate from a good forest management perspective, the Minister may, by reasonable notice in writing, require the Company to submit a revised plan for approval within a specified time, or within any extended time the Minister may subsequently allow.
  - (2) In the event the Minister's dates for forest management plan submission under paragraph 10(1) or revised dates under paragraph 10(7) are not met or the Minister requires the Company to submit a revised plan under subparagraph (1), the Minister may, after consulting with the Company, impose remedies until such time as a new revised plan is approved. The remedies may include but are not limited to:
    - (a) imposition of an annual allowable cut;
    - (b) modification of the approved harvest sequence;
    - (c) adjustment of the yield curves used in the approved forest management plan; and/or
    - (d) the requirement to develop cooperative landscape objectives.
  - (3) If the Minister adjusts the dates for forest management plan submission under paragraph 10(7), the Company may continue to carry out operations in accordance with the approved forest management plan as modified by any remedies imposed by the Minister under subparagraph (2).
- 13 (1) The Company shall recommend, in its forest management plans, areas available for harvesting by other timber disposition holders on the forest management area.
  - (2) The Minister shall consult with the Company concerning proposed areas and methods of harvesting by holders of timber dispositions on the forest management area before designating the areas in which their operation may be carried on.
  - (3) The Company shall, through sustainable forest management planning, make reasonable efforts to integrate and coordinate the management of the forest resources with all timber disposition holders operating on the forest management area.
  - (4) The Minister shall, through sustainable forest management planning, require timber disposition holders operating within the forest management area to conduct all harvesting operations and management of forest resources in accordance with the Company's approved plans and to refrain from hindering or obstructing the lawful operations of the Company.
- 14 (1) The Company shall conduct such forest inventories of the forest management area as are necessary to prepare the plans required by this Agreement.
  - (2) The Company shall maintain a reasonably complete and accurate forest inventory in accordance with the forest planning standards.
  - (3) Unless otherwise agreed to by the parties, the Company shall maintain or participate in a deciduous and coniferous growth and yield program consistent with prevailing standards and policies and acceptable to the Minister.
- 15 All information and data related to the forest management area that has been collected or generated by the Company or the Minister relating to forest management planning

- including forest inventory, other resource uses, growth and yield data, reforestation results, and operational and detailed planning maps shall be made available to the Minister, or the Company, whichever is the case, free of charge upon request and on a timely and confidential basis.
- 16 (1) The Company shall conduct its timber harvesting and reforestation operations in accordance with the approved ground rules jointly developed by the Company and the Minister until such time as they are replaced by the new set of ground rules developed in accordance with subparagraphs (2) or (3).
- (2) Concurrently with the development of the forest management plans developed under paragraph 10(1), or at such time as may be agreed to by the Minister and the Company, the Minister and the Company shall jointly develop a new set of ground rules that are consistent with the forest management plans.
- (3) If a set of ground rules, or a revision to a set of ground rules, cannot be established by mutual agreement, the Minister may establish or revise a set of ground rules that are consistent with the approved forest management plans and the "Timber Harvest Planning and Operating Ground Rules" published by the Minister, as amended from time to time.
- (4) At the initiative of either party, the Minister and the Company shall jointly review the ground rules. These ground rules may be altered by mutual agreement of the Minister and the Company.
- 17 (1) The term of this Agreement shall be divided into four (4) cut control periods each with a duration of five (5) years or as otherwise agreed by the Minister and the Company.
- (2) If the Company over cuts the periodic allowable cut, the Minister may, after consulting with the Company, reduce the periodic allowable cut during the subsequent cut control period by any amount up to the entire over cut volume at the Minister's sole discretion.
- (3) Where production is lower than the periodic allowable cut, the Company may submit a program satisfactory to the Minister making up the under cut volume in the subsequent cut control period, or such other period as may be approved by the Minister.
- 18 (1) The forest management operating year shall commence on May 1 and end on April 30.
- (2) The Company shall submit to the Minister annual operating plans in accordance with the ground rules referred to in paragraph 16.
- (3) Each annual operating plan shall be prepared in accordance with the approved forest management plan and include operating projections showing the proposed harvesting operation intended by the Company. Such operating projections shall be in accordance with the forest planning standards.
- (4) The Minister may approve such plans as are submitted, or may require the Company, after discussing any proposed changes with the Company, to alter any harvesting operations described in the plans, provided that the Minister shall not thereby alter the ground rules and acts promptly so as to avoid delay in the Company's operations.
- (5) When the annual operating plan does not provide for the salvage of dead, damaged, diseased, or decadent timber, the Minister may give notice to the Company that the Minister requires provision for its salvage in such plan. The Company shall amend the plan, or justify the exclusion of such timber from its plan within the notice period specified below. If the Company fails or elects not to do either within such period, the Company shall not be deemed to be in default and the Minister may dispose of such timber to any person by a timber disposition without compensating the Company and the volume of timber so disposed may be charged by the Minister as production under this Agreement. For the purposes of this subparagraph, "notice period" shall mean thirty (30) days, unless the timber disposition exceeds two (2) years, in which case "notice period" shall mean one (1) year.

- (6) When the annual operating plan does not provide for the utilization of all harvested fibre generated as a result of the Company's harvesting operations, the Minister may give notice to the Company that the Minister requires provision for its utilization in such a plan. The Company shall amend its plan, or justify the exclusion of such fibre from its plan within the notice period specified below. If the Company fails or elects not to do either within such period, the Company shall not be deemed to be in default and the Minister may dispose of such unutilized fibre to any person by a disposition without compensating the Company. For the purposes of this subparagraph, "notice period" shall mean thirty (30) days, unless the disposition exceeds two (2) years, in which case "notice period" shall mean one (1) year. No such disposition shall authorize any activities that might reasonably be expected to hinder or obstruct the lawful timber operations of the Company.
- 19 The Company shall utilize all the merchantable timber cut in road construction and other incidental operations of the Company unless otherwise permitted in writing by the Minister.
- 20 (1) The Company shall not hinder or obstruct the lawful timber operations of other timber disposition holders.
- (2) It is recognized that during their operations, other timber disposition holders may cause some incidental damage to timber on the forest management area. No claim shall be made by the Company against any timber disposition holder, or the Minister, for reasonably unavoidable incidental damage to timber.
- (3) The Minister shall ensure that all timber dispositions issued on the forest management area after the commencement date shall include a provision preventing a claim against the Company for reasonably unavoidable incidental damage to timber.
- (4) The Minister shall require other timber disposition holders operating within the forest management area to conduct all harvesting operations in accordance with the Company's approved ground rules and to refrain from hindering or obstructing the lawful operations of the Company.

## **B. REFORESTATION**

- 21 (1) The Company shall reforest at its own expense all lands cut over by the Company under this Agreement and under the Forest Management Agreement authorized by O.C. 28/2002 to the required reforestation standard and shall describe its reforestation program in its forest management plans and annual operating plans.
- (2) In this Agreement the required reforestation standard means the reforestation standards provided for in or agreed to pursuant to the Timber Management Regulation.
- (3) As part of its operations under this Agreement, the Company shall, at its sole expense, furnish all of the seedling trees and propagules required for its reforestation needs.
- (4) Seed, seedling trees and propagules used for reforestation programs under this Agreement shall be produced in accordance with the rules established by the Minister governing the source and type of tree seed and species used to reforest public land.
- 22 (1) The Company shall be solely responsible for reforesting to the required reforestation standard all productive forested lands burned by fire within the forest management area, when the fire has been caused by or arises out of any operations or activities conducted on the forest management area by the Company, its employees, agents or contractors.
- (2) The Company shall not be required to reforest lands cut over or burned after the commencement date unless such cutting or burning was caused by or arises out of any of the operations or activities conducted on the forest management area by the Company, its employees, agents or contractors.

- 23 The Minister shall be responsible for ensuring that forest lands on the forest management area cut over after the commencement date by persons other than the Company, are reforested to the required reforestation standard.
- 24 The Company may devise and implement enhanced forest management programs. The Company and the Minister may enter into an agreement that will define the programs and conditions that, in the Minister's opinion, will establish a sustainable increase in the annual allowable cut approved by the Minister in the Company's forest management plans submitted under paragraph 10.

### **C. FOREST PROTECTION**

- 25 (1) The Minister agrees to provide and maintain an organization of people and equipment necessary for the protection of the forest from and suppression of forest fires on the forest management area and, except as herein otherwise provided, to pay the cost of fighting any forest fire that originates on the forest management area on the understanding that the Minister shall not be liable for damages to the Company resulting from a failure to prevent, control or suppress any fire.
- (2) Notwithstanding subparagraph (1), the Company shall pay the cost of suppressing any forest fire that originates on the forest management area if the fire is caused by or arises out of any of the operations or activities conducted on the forest management area by the Company, its employees, agents or contractors; provided, however, that in no event shall the liability of the Company exceed the liability provided for in a separate Fire Control Agreement which has been negotiated and entered into by the Minister and the Company. If the cause of any fire is disputed by the Company and the Company has entered into a Fire Control Agreement with the Minister, the dispute shall be resolved as set out in the Fire Control Agreement. If there is no Fire Control Agreement in force and the cause of any fire is disputed by the Company, the dispute shall be resolved by means of civil suit in the Courts of Alberta.
- (3) If a Fire Control Agreement between the Minister and the Company is more than five (5) years old at the commencement date, then notwithstanding any provision in that Fire Control Agreement, that Fire Control Agreement will terminate on the first anniversary of the commencement date unless it has been replaced by a new Fire Control Agreement or the Minister has directed otherwise.
- (4) Where there is no Fire Control Agreement in effect, the Company agrees to have on hand in good working order such fire fighting equipment as specified in the Forest and Prairie Protection Regulations and shall train its employees in fire suppression as reasonably specified by the Minister.
- (5) Notwithstanding anything contained in this Agreement, the Company shall not be liable for loss of or damage to Crown timber by fire that is caused by or arises out of any of the operations or activities conducted on the forest management area by the Company, its employees, agents or contractors.
- (6) In the event of an occurrence of insect damage of epidemic nature to forest growth or a disease epidemic affecting forest growth on the forest management area the parties hereto will cooperate in suppressing the epidemic.

- (2) The Company, or its agent, shall remit to the Minister with each timber return the amount of all dues payable by the Company for the volume of timber shown on such returns and when done by the Company's agent it shall not relieve the Company of this responsibility.

## CHARGES AND DUES
