Some reviewers only reviewed selected chapters

## Acknowledgements

This report would not have been possible without funding from the Alberta Livestock Industry Development Fund (ALIDF) and the full support of the Technical Services Division of Alberta Agriculture, Food and Rural Development, which fostered a cooperative research environment.

This report benefited from the insightful comments and information provided by reviewers from across Canada. The authors of this report wish to acknowledge the contribution of the many people involved in reviewing different drafts of this report, especially Dr. Joyce Van Donkersgoed and Bill McMillan.

Our thanks also go to Barb Shackel-Hardman, who spent a significant amount of time on this project to ensure a high quality document, and to Julie Popowicz and Crystal Korth for their tremendous assistance in putting the first draft together. Special thanks go to Darlene Albrecht who, as usual, made all contracts and financial transactions easy in this project. We also thank Carolyn King for bringing her professional writing skills to the final version of this document and Laura Horrigan for facilitating the workshops related to this report.
