

CAP Webinar – Environmental Sustainability

April 5, 2018

What is CAP?

- The Canadian Agricultural Partnership (CAP) is a five-year investment by federal, provincial and territorial governments to strengthen the agriculture, agri-food and agri-based products sector
- In Alberta, CAP will commit to the same level of investment as Growing Forward 2, which is \$406 million, towards Strategic Initiatives programs.
- Outcomes:
 - Increase competitiveness; productivity; profitability;
 - Increase environmental sustainability;
 - Expand domestic and international markets; and
 - Improve the anticipation, mitigation and response to risks.

Canadian Agricultural Partnership in Alberta

Environmental Sustainability

Environmental Stewardship & Climate Change Producer

Environmental Stewardship & Climate Change Group

Farm Water Supply

Irrigation Efficiency

Science and Research

Accelerating Advancement of Ag Innovations

Adapting Innovative Solutions in Agriculture

Products, Market Growth & Diversification

Products to Market – Small Projects

Value-Added Products to Market – Large Projects

Emerging Opportunities in Food and Agri-Processing

Risk Management

Emergency Preparedness

Surveillance

Risk Mitigation

Public Trust

Public Agriculture Literacy

Agriculture & Food Sustainability Assurance Initiatives

Youth Agriculture Education

Rollout Schedule

April	May -June	July-August
