

Growing NHPs for the Future

The Natural Health Products Research Society of Canada is pleased to announce that we will be hosting our **16th Annual NHP Research Conference and Trade Show** will be held at the Fantasyland Hotel in Edmonton, Alberta Canada from May 26th to 29th 2019.

The theme of the conference, **Growing NHPs for the Future**, reflects on Alberta's vibrant agriculture, food and natural health product industries, connecting the natural health sector from production through to products. The conference focus on environmentally sustainable practices and novel technologies will display the research behind the social, economic & health benefits afforded by NHPs. The scientific program will evoke discussion and advance the science implicit in moving from cultural knowledge to products in the marketplace.

We have an exciting program of plenary and invited speakers, with symposia on a variety of NHP research topics including traditional knowledge, natural product chemistry, sustainable agriculture, commercialization & regulatory pathways, cancer, pain & addictions, and nutrition. Our conference includes a tradeshow highlighting our partners and sponsors, a poster and 3MT competition for students, the Neil Towers Award presentation and lecture and much more.

Conference registration and the **Call for Abstracts** is now open – www.NHPRS.ca

We welcome you to Edmonton, Alberta, the “City of Champions” and the **16th Annual NHP Research Conference & Trade Show**.
